1. 1793 Chain type, America. Liberty and date legible. On Reverse legend is also legible. Chain and One Cent rather strong. About Good.

2. 1793 Wreath Type. Edge has Vine and Bars. Sheldon 9-H. We grade this unusual coin as Very Good, but call your attention to the initials apparently engraved on the Obverse. We cannot be sure as to what they are supposed to be. Almost looks like "H W" but missing the cross line in the "H." The Reverse die break is the largest we have seen.

DIMES

Lot No.

71. 1796 A very beautiful About Uncirculated specimen, one of the nicest we have seen in a long time. We believe the coin was actually double struck, as evidenced by the obvious overdate. The Obverse has a few marks which were in all probability caused by a defective die. The Reverse has a brilliant almost proof-like surface, along with the typical normal weak strike.
-

72. 1797 16 Stars. Strictly Very Good.
-

73. 1797 13 Stars. Good.

186. 1873-CC About Good. Needless to say, this is a very scarce specimen.

187. 1873-S Very Good.

188. 1874 About Uncirculated. A very interesting coin in that there is a die break in the "N" of United, and the "N" and "M" of One Dime are weakly struck. There is a strong wire rim on about 50% of the Reverse.

189. 1874-CC Good. Fairly scarce.

190. 1874-S About Good.

Lot No.

-
210. 1884-S About Uncirculated. A really beautiful coin that just barely misses being truly Uncirculated. Still has a great deal of mint luster.
-
211. 1885 Proof. Would be choice except for a spot over right shoulder of Liberty, that appears to go into the surface of the coin.
-
212. 1885-S Very Fine to Extremely Fine. A truly scarce piece!
-
213. 1886 Very Fine.
214. 1886-S Very Fine to Extremely Fine.
215. 1887 In our opinion, a magnificent original Proof that has never been touched. The toning, coloring and iridescence should certainly be appreciated by the true collector, even though it is not that expensive a coin.
216. 1887-S Brilliant About Uncirculated. Just misses being Uncirculated by the smallest margin. Actually, we feel that it is really Uncirculated with a tiny amount of cabinet friction. We are splitting hairs on this specimen.
217. 1888 Proof. Has two small spots on Obverse; otherwise, it is a very choice coin.
218. 1888-S Very Fine.
219. 1889 Extremely Fine.

228. 1875-CC Almost Very Good.

REFRESHMENTS WILL NOW BE SERVED.

QUARTER DOLLARS

232. 1796 The first date of the Quarter Dollar, and in all probability the most popular and sought after of early U.S. minor coins. We can grade this as only Fair, due to the Reverse being so badly worn.
-
233. 1804 The second date of issue and the first date that indicates the denomination. A Very Good piece.
-
234. 1815 The first year with Liberty Head Facing Left. A very desirable type coin that is almost Very Fine.
-
235. 1819 Small 9. A choice specimen for a Fine coin.
-
236. 1820 Large O. A Fine item with a scratch on the field at 4:00 o'clock. and a slight rim nick at 6:00 o'clock.
-
237. 1824 Just a little bit better than Fine.
-
238. 1825 over 23. Extremely Fine.
-
239. 1878-S A magnificent About Uncirculated example with lovely iridescent toning. We actually believe this coin to be Uncirculated, but there is just a little rubbing on the breasts. Rare in such condition.

EARLY UNITED STATES PROOF SETS

1859 PROOF SET

Lot No.

240. 1859 Proof Set complete, consisting of One Cent, Three-Cent Silver, Half Dime, Dime, Quarter, Half Dollar and Dollar. All are Brilliant except the Three-Cent Silver, which is toned dull, and the Dime which is beautifully iridescent. To the best of our knowledge, there are no recent auction records, and in our opinion there cannot be more than 50 sets extant. This is certainly one of the rarest Proof Sets known, and should bring between \$2,000 to \$2,400. Mounted in custom holder.
-

1869 PROOF SET

241. 1869 Proof Set complete, including One Cent, Two-Cent, Three-Cent (Nickel), Three-Cent (Silver), Nickel, Half Dime, Quarter, Half Dollar and Dollar. All are slightly toned, which makes it a lovely uniform virgin set. According to Mint records, it is believed that there never could have been more than 600 sets put together. It should be pointed out that again there are no recent auction records, and that singly the coins catalogue at \$1,555. We feel this set should realize from \$2,000 to \$2,500. Mounted, of course, in custom holder.
-

1874 PROOF SET

242. 1874 Proof Set. A Brilliant, complete set with the exception of the Cent which is somewhat toned. Seven pieces in all, composed of One Cent, Three-Cent (Nickel), Nickel, Dime, Quarter, Half Dollar and Trade Dollar. It would seem reasonable to presume that the maximum number of sets would have been 700. Mounted in a custom plastic holder. Estimates range from \$1,500 to \$1,800.
-

1880 PROOF SET

243. 1880 Proof Set, consisting of One Cent, Three-Cent (Nickel), Nickel, Dime, Quarter, Half Dollar, Dollar and Trade Dollar. All the silver pieces are Brilliant, the others nicely toned. Catalogues today at \$917.50. Mounted in black plastic custom holder. Should bring from \$900 to \$1,100.
-

Lot No.

244. 1896 Proof Set complete, composed of One Cent, Nickel, Dime, Quarter, Half Dollar and Dollar. All are Brilliant with the exception of the Cent, which is a gorgeous golden toned piece, and there are two tiny carbon spots developing on the Nickel just in front of the chin. Catalogues at \$700.00 and should certainly realize more than that. Mounted in a custom black "K" holder.

UNITED STATES PATTERNS

245. 1849 TRIME (Three-Cent Piece). Mule of the 3 and III reverses. Judd #114. Copper-nickel, plain edge. Rarity 8. This is a restrike that was probably done about 1863, which is emphasized by the fact that this piece weighs 25.0 grains. It is an original, Uncirculated item, very lightly toned. Should bring from \$50.00 to \$60.00.
246. 1850 TRIME. May be designated as an experimental piece. Obverse, a radiated Liberty Cap with LIBERTY on the band; 1850 below. Reverse, III encircled by a palm branch; UNITED STATES OF AMERICA. J. 125. Silver, Plain Edge (A.W. 110). Rarity 4. It appears that this example may be a silvered electrotype, as copper appears to be showing through. Weighs 11.8 grains. Estimate?
247. 1868 THREE CENTS. Obverse, Head of Liberty wearing a coronet with the word LIBERTY incused; large date. Reverse, III in a laurel wreath. Numerals have a smooth surface (19 mm.). J. 618. Nickel, Plain Edge. (A.W. 692). Rarity 4. **Brilliant Proof**. Should realize between \$50.00 and \$60.00.
248. 1866 FIVE CENTS. Obverse, Bust of Washington; IN GOD WE TRUST. Reverse, Short 5 in wreath. Copper, Plain Edge. J. 471. (A.W. 550). Rarity 6. **Proof**, except slight carbon spot in lower part of hair. Wire edge unusually high on part of obverse. Estimate from \$100.00 to \$120.00.
249. 1869 FIVE CENTS. Obverse, Head of Liberty wearing a coronet with a star inscribed LIBERTY in raised letters. Reverse, V in a laurel wreath connected at the top by a scroll inscribed IN GOD WE TRUST; a small Maltese cross in the folds. J. 684. Nickel, Plain Edge (A.W. 803). Rarity 4. Just short of being About Uncirculated. There are several scratches on the Reverse, as well as a file mark at about 1:00 o'clock. Should still realize between \$100.00 and \$125.00.

Lot No.

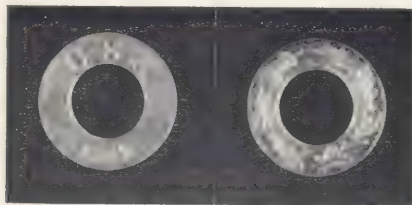

250. 1882 FIVE CENTS. This BRILLIANT GEM PROOF is by far the rarest of the Liberty Head Nickels, with exception of the 1913. It is in reality a transitional piece, as it is the regular die of the 1883, Obverse and Reverse. J. 1690. Nickel, Plain Edge (A.W. 1675). It is our belief that there could not have been over 25 ever struck. Judd catalogues this beauty at \$2,500.
-
251. 1869 DIME. Obverse, Head of Liberty wearing a liberty cap decorated with three stars; IN GOD WE TRUST on a scroll below. Reverse, 10 CENTS in an oak and laurel wreath; STANDARD SILVER above and 1869 below. J. 696. Silver, Reeded Edge (A.W. 775). R. 5. 31 to 75 struck. BRILLIANT PROOF with a trace of iridescence by the edges. A bid between \$65.00 to \$75.00 is certainly worthwhile.
252. 1870 DIME. Obverse, Head of Liberty wearing a liberty cap decorated with three stars (A.W. calls it two stars); IN GOD WE TRUST on a scroll below. Reverse, 10 CENTS 1870 within a wreath of cotton and corn; Standard above. This is a beautiful darkly iridescent PROOF that appears to be flawless. J. 837. Silver, Reeded Edge (A.W. 1006) Rarity 6. Should certainly bring between \$50.00 to \$60.00.
253. 1859 HALF DOLLAR. The Longacre design. Obverse, Head of Liberty crowned with wreath of oak and vine leaves; ribbon inscribed LIBERTY around neck. Reverse, ½ DOLLAR in the "cereal wreath." J. 240. Copper, Reeded Edge (A.W. 296), Rarity 4. A lovely proof-like coin beginning to develop carbon spots in several places. Estimate between \$90.00 and \$100.00.
-
254. 1870 HALF DOLLAR. Obverse, Head of Liberty wearing a coronet inscribed LIBERTY in raised letters, with one star. Reverse, 50 CENTS in an oak and laurel wreath; STANDARD SILVER above, and 1870 below. J. 988. Silver, Plain Edge (A.W. 901). Rarity 6. This is a perfectly gorgeous BRILLIANT PROOF with light iridescence beginning near the edges. Estimate range, \$150.00 to \$200.00.

Lot No.

255. 1873 TRADE DOLLAR. Obverse, The Bailey design. Head of Liberty crowned with leaves; hair braided and coiled behind. Reverse, Eagle with spread wings. The right talon holds three arrows, and the left supports a shield inscribed IN GOD WE TRUST: E PLURIBUS UNUM in field above. 420 GRAINS 900 FINE in field below. J. 1281. Silver, Reeded Edge (A.W. 1303). Rarity 5. PROOF, apparently rubbed. One very slight rim dent at about 5:30 on Reverse. The Reverse was weakly struck, which will be noted in the flatness of the eagle's breast, and IN GOD is the only part visible in that legend. Otherwise, a very choice specimen that should be bid from \$350.00 to \$400.00.

256. 1852 GOLD DOLLAR. Obverse, U S A at top; 1852 at bottom. Reverse, a circle of laurel sprigs around perforation. J. 138. Silver, Plain Edge, (A.W. 153). Rarity 8. Only 2 or 3 struck. Truly an outstanding rarity that should elicit a bid between \$350.00 to \$400.00.

SILVER BAR

Lot No.

257. This is a rather large, oblong bar minted at the San Francisco Mint bearing Serial Number 214501. There was an error in the number, as it is a 5 over a 4. The bar weighs 25.52 ounces, and, of course, is 999.75 fine. It is approximately 99 mm. in length, and 21 mm. average in thickness. We believe this rare item should bring a bid of around \$200.00.

PAPER MONEY

RARCOA takes this opportunity of offering some rare and choice currency. All numbers used, of course, are Friedberg. We would like to point out that we have attempted to be very conservative in our grading, which is our policy on all material. The last figure in parentheses is merely our estimate of the approximate value of each note.

RARCOA takes pleasure in offering for sale at this Auction an unusually fine selection of **Brilliant Uncirculated Rolls** which came out of an outstanding collection. To the best of our knowledge, all of these Rolls were collected by the individual involved in the year of issue, and have been in vaults ever since. All show original mint luster, and have never been cleaned or processed in any way.

BUFFALO NICKELS

-
- 306. 1926-D A most unusual Roll, and as far as we know, the only one available for purchase. This group of coins has the typical weak characteristic strike. There is not what we could call a really strong strike in the lot. Full roll of 40 coins. Brilliant Unc.

UNITED STATES SILVER DOLLARS

Lot No.

363. 1795 Flowing Hair, 2 leaf variety. A very nicely struck example in Fine to Very Fine condition.

364. 1795 Bust Type. Someone apparently tried to drill a hole to right of date which goes through about one-third of the coin, and is approximately $\frac{1}{8}$ " in diameter. Otherwise, the coin grades V.F.

365. 1796 Small Date, Large Letters. A very evenly balanced coin that grades Fine to Very Fine.

366. 1797 10 Stars Left, 6 Right. Has a number of adjustment marks on Obverse. Fine, but not quite Very Fine.

Lot No.

367. 1797 9 Stars Left, 7 Right, Large Letters. Nick in the rim on Reverse which barely goes through to the Obverse. Struck very slightly off-center. A rather rare piece in Fine condition.

368. 1798 15 Stars, Small Eagle. A beautiful evenly-toned coin with only a slight rim nick above the "E" in Liberty. We consider this to be a really rare item and grade it as a strong Very Fine.

369. 1798 Wide Date, 13 Arrows. A few minor edge dents. Strictly Fine.

370. 1799 7 Stars Left, 6 Right, 13-Star Reverse. One insignificant edge ding. Fine to Very Fine.

371. 1799 8 Stars Left, 5 Right. A surprisingly sharp coin for being just a little bit better than Very Good.

372. 1800 A Very Fine to Extremely Fine specimen which is listed by Bolender as B-8 (H-8), Rarity 2. However, it is most unusual in that it was struck off-center quite a bit, which apparently is not mentioned anywhere.

Lot No.

373. 1800 AMERICA. Has some very interesting small iridescents. Strictly Very Good.

374. 1801 A Very Good piece with some minor edge nicks.

375. 1802/1 Close Overdate. The overdate is extremely sharp. This coin grades a little better than Fine, and according to Bolender rates as Rarity 5.

376. 1802 Close, Perfect Date. Seemingly well struck. It is almost Very Fine.

377. 1803 Large 3. Even though we grade this as Very Good it should be noted that it is toning beautifully along the rims.

SILVER DOLLARS

LIBERTY SEATED TYPE — REGULAR ISSUES

378. 1840 First year of issue. Fine to Very Fine.

379. 1841 Extremely Fine with some mint luster visible.

380. 1842 A lovely coin that we believe originally may have been a Proof, although we can now only grade it Extremely Fine.

381. 1843 Very Fine. There is rather a large scratch on both the Obverse and Reverse.

382. 1844 Extremely Fine. A nice specimen.

383. 1845 A very strong Extremely Fine piece, but there is a rather large "X" cut into the Obverse.

384. 1846-O First of the New Orleans Silver Dollars. Scarce, Very Good.

385. 1847 Extremely Fine, with some lovely toning.

386. 1848 A very nice Extremely Fine example, with a minor cut on the Reverse rim.

387. 1849 Very Good.

Lot No.

388. 1850 This is a beautiful About Uncirculated coin with a proof-like surface, still showing remnants of a wire edge. Has a number of surface abrasions.

389. 1850-O Strictly Very Good.

390. 1853 Extremely Fine with some abrasions on Reverse surface.

391. 1856 A very choice, rare specimen that is better than Extremely Fine, with an almost mirror-like surface.

392. 1857 Extremely Fine, possibly a first strike.

393. 1859 BRILLIANT PROOF with some abrasions on both sides, which removes it from a gem classification. There is also very minor cabinet friction on the high spots of the Obverse.

394. 1859-O Very Good, evenly worn.

395. 1859-S Fine, with some iridescent toning.

396. 1860 Extremely Fine, very sharp and uncleaned.

397. 1860-O Untouched. Nice specimen. Extremely Fine.

Lot No.

398. 1862 BRILLIANT PROOF. Relatively low mintage. A radiant piece.

399. 1863 BRILLIANT PROOF. Equally as lovely as the preceding one, with the exception of a few minor surface abrasions.

400. 1864 Strictly Fine. Nice coin.

401. 1866 With Motto. First year for this type. Excellent for a type set.

402. 1867 A very nice Extremely Fine coin even though "Liberty" seems a little weak.

403. 1870-CC Very Fine. There is a gouge running through diagonally the lower part of the "O" in "1870" to the rim. Scarce.

404. 1871-CC Decidedly Fine. Obviously a rather rare item and difficult to find in any condition.

Lot No.

405. 1872-CC Must call this Good to Very Good. Likewise, very scarce.

406. 1872-S Low mintage. Well struck. Extremely Fine.

407. 1873 Almost Very Fine.

408. 1873-CC We would normally grade this scarce item as Very Fine, even though "Liberty" is weakly struck. However, it has obviously been repaired, probably plugged, between the two stars opposite the right shoulder of the seated figure. Just above the left shoulder there is also a flaw, and in the field there is lightly engraved the initials "C H." Notwithstanding, this is a desirable bit for the knowledgeable collector.

409. 1883 BRILLIANT PROOF. Very light toning.

410. 1892 BRILLIANT PROOF. Simply gorgeous. One miniscule spot opposite the star between "America" and "Dollar" on the Reverse.

411. 1894 BRILLIANT PROOF. A gem that is very scarce. Very lovely wire edge. Only 972 minted. Should at least bring the catalogue figure.

Lot No.

412. 1895 **BRILL. PROOF.** Over the eye below the hair there is a small flaw which we hesitate to attribute. As unlikely as it seems, it almost appears to be a minor die defect. There is also the beginning of a carbon spot on the nose, and a very tiny one in front of the nose. Nonetheless, a beautiful sample that any collector would be proud to own.

413. 1897 **BRILLIANT PROOF.** Just magnificent with the tiniest edge dinge on the Reverse beneath the first "L" of "Dollar". We are at a loss to account for it, since the coin is otherwise completely pristine.

PEACE TYPE SILVER DOLLARS

414. This is a complete, average Uncirculated set of Peace Dollars. The coins are not perfect by any means, as they have the typical bag marks due to the manner in which they were handled. Nevertheless, it is a very nice set, mounted in a black plastic Capital holder.

UNITED STATES TRADE DOLLARS

415. 1873 Strictly Fine.
416. 1873-CC Fine, evenly worn, scarce.
417. 1873-S Extremely Fine with some very interesting die flaws on Obverse and Reverse.

Lot No.

418. 1874 **BRILLIANT PROOF**. A truly gorgeous coin with a strong wire edge on both sides. Any fastidious collector would be proud to have it in his collection. Rather scarce, too.

419. 1874-CC About Uncirculated. A brilliant coin with proof-like surfaces. Really a beauty.

420. 1874-S Very Fine. Apparently weakly struck in part.

421. 1875 **BRILLIANT PROOF**. Not quite a gem. Die flaw just above outstretched hand. Minor surface abrasions. Nevertheless, a beautiful coin for such a scarce item.

422. 1875-CC Extremely Fine. A very conservative grading.

423. 1875-S About Uncirculated. Choice piece.

424. 1876 **BRILLIANT PROOF**. Truly a beauty even though there are a few minor die flaws on the Obverse. This is a scarce item. Wire edges very strong. Iridescent toning is lovely. However, someone at one time tried to clean this coin, and there are brush marks on both sides.

425. 1876-CC Extremely Fine. A small scratch on Reverse by the second "S" of "States," and a few minor dinges.

426. 1876-S A very worthwhile About Uncirculated coin.

427. 1877 Extremely Fine; nice specimen.

Lot No.

428. 1877-CC An Extremely Fine to About Uncirculated coin that, if it could talk, would probably reveal an interesting story. It appears that it may have been buried at one time or another, as there are some minute particles of dirt still adhering to this item.
429. 1877-S About Uncirculated.
-
430. 1878 Proof. We must call this an Impaired Proof as there are minute signs of rubbing which on a normal coin would force us to call it About Uncirculated. However, even though someone attempted to polish it, the coin is still a Proof.
-
431. 1878-CC Very Fine. Anyone needing this particular date and mint mark could not go wrong with this coin.
-
432. 1878-S An Extremely Fine example which somebody at one time or another polished, for some unfathomable reason. Still a very attractive coin.
-
433. 1879 Proof. We cannot call it Brilliant, as once again someone polished it. Nonetheless, a very desirable coin.
-
434. 1880 Proof. We would call it choice, but believe that at one time it was dipped. There are two tiny die flaws on the Obverse near the rim at about 11 o'clock. Possibly a third one at 9 o'clock.
-

435. 1881 BRILLIANT PROOF. A superb specimen even though there are a few tiny marks on the Obverse field. This is one of the choicest we have seen in a long time. Really scarce.

Lot No.

436. 1882 BRILLIANT PROOF. Another superb specimen. Any collector would be proud to own this piece.

437. 1883 BRILLIANT PROOF. Another very scarce magnificent coin that is starting to tone beautifully.
